

March 15, 1973

and when they get there of course, it only requires one objection to have a hearing for them, but there is no use having any hearing if these things are things that we are required to do and only corrective and brings the statute into conform with what we have to eventually anyway. That's the reason I asked the question.

SPEAKER: Senator Kennedy.

SENATOR KENNEDY: I hesitate to say this without more information, but I wonder if this bill is fairly well related to even part of the bill that we have in the health committee. I haven't had a chance to visit with Senator Marvel and I hesitate to -

SPEAKER: Well we have the motion before us and the Chair has to dispatch it one way or another. Stand by just a minute please. While we are waiting here for a little floor comparison and discussion, the Chair would like to introduce eleven Cadet Girl Scouts from Troop #97 of Lexington, Nebraska, of course those girls come from Senator Duis' district, and their leader is Mrs. Dick Crawford and Mrs. Harold Erpelding, we are delighted to have you today as visitors to the Nebraska Unicameral Legislature, and I think they are seated in the south balcony, if you would stand up we would be able to find out, very good. Thank you, we hope you enjoy your visit to the Nebraska Unicameral Legislature. Are we still conferring on the bill? Senator Marvel did Senator Kennedy have his question answered? Very good.

CLERK: There has been another motion Mr. President if you want to take it up?

SPEAKER: Well we can take, what's the next motion on the desk?

CLERK: I move for the introduction of the attached bill, signed Senator Clark (read).

SPEAKER: Let's take it up Senator Clark.

SENATOR CLARK: Mr. President and members of the legislature, this a bill put in by the sub committee of the Appropriations Committee, Senator Marvel did not sign the bill, so I had to sign it as Vice-Chairman of the committee. This was put in by Senator Whitney's sub-committee. I'd like to have him explain the bill for you.

SPEAKER: Senator Whitney. Senator Clark is asking you to explain the bill which has been introduced, put in by the sub-committee. The Chair recognizes Senator Whitney.

SENATOR WHITNEY: Yes, this bill is the result of an interim study committee of which Senator Nore and Stahmer, Fred Carstens, Whitney, were engaged in and as a result of a great amount of study in this bill, we felt that there should be a greater state support to the educational service units, that take care of the mental retarded boys and girls in the state, and so that this bill will do that. Now as you know the present law is that if a parent asks the school district to provide an educational program for the mental retarded, the school district has to do it, and many school districts have failed to do it. They've refused to do it, and we feel that we should have a little great state effort in the mental retarded field, so that we can calm down some of these people and let's get the job done, and this is primarily what the bill is, it also will require that counties be in the educational service units and I've always been against this up until now, but if we put in a little more state effort, then there should not be any criticism by any county not wanting to get in, and so therefore I feel that this bill is one of the most important bills in this legislature here and should be introduced and I so move.
